

Have you been diagnosed with chronic sinusitis?

Have you had two or more of these symptoms for at least 12 weeks?

- » Facial discomfort
- » Nasal drainage
- » Nasal congestion
- » Loss of the sense of smell

is participating in a clinical research study of treatment options for chronic sinusitis symptoms. If you participate in this study you can choose to continue taking medication to treat your sinus symptoms or to have a surgical procedure to open your blocked sinuses.

If you or someone you know is 19 years of age or older, has chronic sinusitis and can attend 4 periodic doctor visits to evaluate changes in sinus symptoms over a 1 year period of time, you may be eligible to participate in this research.
